

# *Art with EcoSense*

## Portfolio & Internship

Do you dream of a world of well designed communities using busses and trains, surrounded by protected green space? Live in a world of asphalt, surrounded by traffic-congealed single occupancy vehicles? Ready to stop dreaming & get to work on the early stages of the transition?

### **Available Roles:**

- Web Design, including User Interface
- Brochures & Graphics
- T-shirt Designs

Our website is at [www.spaceshare.com](http://www.spaceshare.com), designed by a programmer and needing revision by someone with more artistic skill. We also hope to design education graphics appropriate for t-shirts, which may be a fun smaller project. If we use your work, you'll be helping a great environmental project, and have the chance for a very public portfolio. Web designers will get to work with people who know what CSS is, so there will be more creativity and less grunt work for you. If you need to fill a class assignment, we welcome efforts individual components of the above list.

### **SpaceShare:**

SpaceShare is an environmental partnership developing online tools to make ridesharing much easier. We've created rideshare and room-share matching tools for concerts, activist events, conferences, etc. Now that we have developed the technologies and tools, we need to grow an organization that can get the word out and encourage cultural shifts towards sharing. Replacing cars with community.

### **Vision:**

See our website for more about us: [www.spaceshare.com/index.php/vision](http://www.spaceshare.com/index.php/vision)

### **We need you to make this happen:**

Email [info@spaceshare.com](mailto:info@spaceshare.com) or see our website at [www.spaceshare.com](http://www.spaceshare.com)  
Or call Stephen at 510-520-6175
