

## A perfect class-project or internship:

SpaceShare builds carpooling tools for large events. We recently helped people carpool to Power to the Peaceful and EarthDance...

We need a short performance piece for the stage at these festivals, inspiring attendees to share the ride to the next festival they go to.

Looking for:

- ❖ **Playwright**  
Script for live performances, video or flash animations.
- ❖ **Performers**  
Come to festivals. Get seen by thousands!

Your work could be seen by a hundred thousand people within a year!!! Help a green cause that's making a difference!

Ask for: Stephen Cataldo at SpaceShare Carpooling  
p 1 (510) 520 - 6175  
f 1 (270) 518 - 3103  
[info@spaceshare.com](mailto:info@spaceshare.com)  
[www.SpaceShare.com](http://www.SpaceShare.com)

An example piece:

**Backdrop:** a cut-out of a car.  
Five chairs are brought on stage, two "front seats" and three "back seats."  
Two long haired liberals/hippies take the front seats.

**Narrator motions towards seats:**

This little hippy voted for Kerry, (first hippy waves)  
and This little hippy voted for Dean, (second hippy waves)  
But this empty seat funded Karl Rove,  
and this empty seat sent someone to Iraq,  
and this empty seat cried oil, oil, oil all the way here.

[This festival] offered a SpaceShare carpool site, and so will the next festival you go to. ... Please find your neighbors and pack your cars!

This first version written by computer programmers, can you do better? We need versions for non-political festivals (enviro messages but no Bush mention.)
